Welcome to METALTECH & AUTOMEX 2025, the region's most anticipated gathering for the metalworking, machinery, and automation industries.

Year after year, this flagship event brings together the industry's top minds and cutting-edge solutions, creating a dynamic platform to explore advancements, foster collaborations, and accelerate industrial growth.

This year, we're proud to host over 1,500 participating brands and companies from 40 countries, presenting the latest in smart factory systems, CNC machinery, precision tools, and robotics, technologies that are actively reshaping modern manufacturing. With 20,000 industry professionals from 49 countries expected, METALTECH & AUTOMEX continues to be a powerhouse for industrial progress and global connections.

Our 2025 theme, "Sustainable Manufacturing: From Smart Solutions to AI Innovations," reflects our commitment to advancing purposeful, future-focused transformation. As markets evolve and sustainability becomes a priority, manufacturers must innovate to stay ahead. AI and smart technologies now play a critical role in driving efficiency, reducing waste, and creating more responsive, resilient operations.

In addition to the extensive exhibition, seminars, and live demonstrations, we're excited to introduce the Advanced Machinery & Engineering Summit (AMES) 2025, launched in collaboration with the Machinery & Engineering Industries Federation (MEIF).

Held for the first time alongside METALTECH & AUTOMEX, AMES 2025 offers a high-level platform for in-depth discussions on regional industrial trends, including trade resilience, advanced manufacturing, and ASEAN's sustainability initiatives. This single-track summit brings together policymakers, industry leaders, and trade experts for strategic dialogues and insights that will shape the future of the sector. It's an excellent opportunity for you to expand your knowledge, build connections, and explore actionable strategies.

As we prepare for our 30th anniversary in 2026, the excitement for the future of manufacturing is building. Expect even greater innovations, deeper collaborations, and a continued commitment to shaping the future of manufacturing.
